A newly planted development located west of the Horse Heaven Hills AVA, settled between a basalt cliff and the Columbia River.

OUR STORY

In 1886 the Mercer Family settled Southern Washington State in the area now known as the Horse Heaven Hills AVA. Our family has been a proud steward of the same property for more than a century. With access to abundant natural resources and the use of sustainable farming practices, our land will continue to produce world class fruit and vegetables for generations to come.

The Horse Heaven Hills is home to Mercer Canyons and our spectacular vineyards located on the southern slopes along the mighty Columbia River. This region's long hot days and cool nights paired with the unique terroir is producing fruit with brighter tones and acidity, intense color, and dusty tannins.

Our Family Crafted wines from Washington State are setting a new standard of quality and value in the great world of wines.
